Aurora Cedars School

A specialist independent day school, offering academic and therapeutic provision for students aged 5-19 with additional social, emotional and mental health needs.

Welcome to our school

Situated approximately two miles to the west of Wolverhampton City Centre, Aurora Cedars is a specialist school providing personalised, tailored academic and therapeutic support in a calm, nurturing environment for students aged 5-19 with social, emotional and mental health needs, including those who face communication and behavioural challenges associated with Autism spectrum conditions.

Our team of skilled and experienced practitioners will support our students throughout their transition into young adulthood, so that by the time they leave us, they can look forward to bright, exciting futures.

Our facilities and curriculum

Students at Aurora Cedars will enjoy access to a range of specialist on-site facilities as well as access to local leisure facilities.

Our curriculum is designed to broaden our students' horizons, widen their cultural capital and empower them to be curious about the world around them. Alongside the core National Curriculum subjects of Maths, English and Science, we will offer our students the opportunity to explore, discover and enjoy a wide variety of other interests and skills.

We will support all our students to progress to further education, training or employment, offering optional short courses and vocational qualifications.

Supporting learning

Many of the students who arrive at Cedars will have had negative experiences of school in the past. We strive to offer them a different, more positive experience, working hard to ensure that their needs are identified and catered for; that they feel settled and quickly develop a sense of belonging within our school community.

We take a proactive, evidence-based approach to changing behaviours of concern, completing functional behaviour assessments and creating appropriate behaviour support plans that employ Positive Behaviour Strategies (PBS), such as pre-correcting, prompting and nonverbal signals.

Where students need specialised therapy, the school will work in partnership with parents/carers and local authorities to support this intervention and work in a holistic manner to support each student's needs.
