

**OPENING IN
AUTUMN 2026**

Aurora Brampton Valley School

A specialist day school providing education and therapeutic support for children and young people aged 5 to 19 with Autism Spectrum Conditions (ASC), and associated social, emotional and communication needs with a highly relational, structured and experiential approach to learning.

Welcome to our school

Aurora Brampton Valley School is a specialist school in Market Harborough, where we place relationships at the heart of everything we do. We believe that learning happens best when pupils feel safe, understood and supported by adults who know them well. Our therapeutic, relationship-based approach enables pupils to build trust, develop emotional regulation and grow in confidence as learners and individuals.

We support a wide range of autistic pupils, including those who may also have additional needs such as sensory processing differences and learning disabilities. Our mission is to empower pupils to develop skills, confidence and independence, preparing them for fulfilling lives and active participation in their communities.

Our facilities and curriculum

Aurora Brampton Valley School benefits from being carefully designed to support regulation, engagement and practical learning. We offer a broad and balanced curriculum with a flexible timetable designed around each student to recognise individual abilities, interests and needs. Key features of our curriculum include:

- **Hands on, practical learning** that brings concepts to life and builds real world skills
- **Learning through experience**, with opportunities to apply knowledge in meaningful contexts
- **Preparation for adulthood**, including communication, independence, problem solving and decision making
- **A strong focus on life skills**, emotional literacy and self regulation

Academic learning is complemented by a strong emphasis on social development, wellbeing and employability skills, ensuring pupils are prepared for the next stage of their education or transition into adult life.

Our curriculum is practical, experiential and purposeful, designed to prepare pupils for adult life as well as academic progression. Learning is carefully sequenced and personalised, enabling students to make secure progress at their own pace.

Supporting learning

We provide a holistic, therapeutic approach to support every pupil:

- **Therapeutic input** integrated into daily practice
- **Emotionally informed strategies** to support regulation and behaviour
- **Highly trained staff** with expertise in supporting autistic pupils, trauma informed practice and relational approaches
- **Clear routines and consistent expectations** to support security and success
