<b>Approved by:</b>	<i>Headteacher</i>
<b>Implementation date:</b>	<i>January 2023</i>
<b>Next review due by:</b>	<i>January 2024</i>
<i>This policy has been reviewed to ensure it promotes safeguarding and does not present barriers to participation or disadvantage any protected groups</i>	

## 1. Aims

This policy aims to:

Aurora Hedgeway School recognises that all students should have access to a broad and balanced curriculum. All students need to work at a level which is appropriate to their understanding, relevant to their chronological age and at a rate that suits their individual abilities. Learning and teaching is approached with the focus on the individual needs of the learners. Each student has a tailored curriculum based upon their baseline assessment, previous academic outcomes and long-term learning targets. Students will be taught in small groups, individually, and when appropriate within the community-so that skills are generalised to real life settings and pupils are prepared for life in the wider world. High aspirations are held for all pupils, through the curriculum pupils' experiences, knowledge, self-confidence, ability to communicate and independence are developed.

Our curriculum is designed to build the practical, everyday skills identified through the EHCP and our school tracking programme, into the wider curriculum so they are integral to what we deliver every day, whilst also empowering parents/carers to reinforce these skills within the home environment. This sits alongside high-quality learning experiences based on a broad and balanced curriculum.

Our curriculum is designed to broaden our pupil's horizons, widen their cultural capital and empower them to be curious about the world around them. Through personalised support and a nurturing approach our students will become compassionate, independent learners who are well prepared for the demands of the 21st century in modern Britain.

Our aims are:

- To ensure all pupils have access to a broad and balanced curriculum
- To ensure that all students have an equal right to access high quality teaching in all areas of the curriculum that addresses their individual needs and supports them to make at least good progress
- To promote the spiritual, moral, social and cultural development of all pupils
- To encourage personal development, so that all pupils are well prepared to respect others and contribute to wider society and life in Britain
- To promote fundamental British Values of democracy, the rule of law, individual liberty, and mutual respect and tolerance of those with different faiths and beliefs
- To support all pupils in developing healthy lifestyles and developing positive relationships
- To provide opportunities and experiences that develop pupil's communication skills
- To ensure the teaching and learning of functional skills, knowledge and understanding including access to vocational pathways in KS4/5
- To ensure all pupils have meaningful pathways towards their next destination and for pupils to have meaningful involvement in decision making related to this

## Curriculum Overview

	Lower	Middle	Upper
<b>Core subjects</b>			
English	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Maths	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Science	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Food Technology	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Careers	*	<input type="checkbox"/>	<input type="checkbox"/>

**\*not compulsory at Key Stage 4.** Offered as discreet subject within topic/humanities or PSHE

**Preparation for Adulthood** for every student over the age of 14

## 2. Legislation and statutory requirements

This policy is based on the following advice/legislation:

This policy takes into account the requirements of the Independent school standards.

## 3. Scope

Pupils at Aurora Hedgeway School have a range of needs including; ASD, Asperger's and Social and Communication Difficulties, high anxiety and Sensory Processing Disorder. Pupil needs are in most cases a complex mix of the above and may also include Dyslexia, Dyspraxia, ADHD and Social, Emotional and Mental Health Difficulties. Most have a history of failed educational placements. The Young People are characterised by a lack of self-esteem and confidence, a reluctance to trust and a fear of challenge. This means that teachers must be creative and tailor approaches to each young person to build resilience and confidence.

## 4. Curriculum

In Key Stages 1, 2 and 3 pupils will follow programmes of study which deliver the skills and knowledge identified in the National Curriculum. The curriculum will embrace all areas of academic learning at a level that is related to individual educational needs and provides suitable levels of challenge. Opportunities to develop pupil's personal, social and health awareness and understanding will be embedded across all curriculum areas.

Studies in key stage 4 support pupils to attain relevant qualifications so that they can and do progress to the next stage of their education. For some, this may be onto courses that lead to higher-level qualifications and into employment. Aurora will provide opportunities for young people to stay within an educational setting post 16 which supports and meets their educational, emotional and mental health needs, where they can continue to sit GCSE and related qualifications and gain independence and life skills. We will support young people

through individual pathways to enable them to successfully navigate to the next stage of their education or employment.

The school has a strong belief in the value of vocational educational programmes and provides access to suitable courses and accreditation. Vocational studies can include opportunities for pupils to attend college and work placements, with support from staff.

The school is regularly visited by outside speakers and arrange educational visits giving pupils the opportunity to access learning through members of the community and experience learning through a wide range of sources. Integral to our curriculum is a wide range of educational experiences that extend beyond the classroom. Trips and visits extend the range of environments in which pupils learn and broaden their experiences of the wider world.

Outdoor Education programmes include adventurous activities that enable pupils to enjoy taking part in physical and social tasks, in a range of environments and locations which are free from the constraints of a classroom. Pupils have opportunities to develop social skills, self-confidence, tolerance and team working skills whilst developing positive attitudes to health and fitness.

The School provides Sex and Relationships education. Pupils are encouraged and guided by moral principles and taught to recognise the value of family life. The role of SRE is to both explore and challenge conventional notions of masculinity and femininity, describing sexuality in a positive sense. It provides pupils with the knowledge, skills and attitudes to feel happy and supported in their own sexual identity, and to respect others' sexual identity. Those involved in the delivery of SRE will be committed to securing a safe environment which encourages open discussion of both the positives and dangers of sexual activity. The biological aspects of human reproduction are delivered through the science curriculum. We recognize that parents have the right to withdraw their children from any or all parts of the school's program of Sex and Relationship Education, other than those elements, which are required by the Science National Curriculum.

SMSC and PSHE are central to all aspects of our curriculum. Pupils are encouraged to respect the law and to act consistently with their own beliefs and with a view to the consequences of their own and others' actions. We enthusiastically promote fundamental British Values of democracy, the rule of law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs.

Political issues are introduced in a number of courses and are presented in a balanced manner. The promotion of partisan political views in the teaching of any subject in the School is not allowed.

Religious Education is delivered as a discreet subject and also referenced within other subjects as and when it is relevant. The RE curriculum incorporates learning about other religions so pupils have a broader understanding of the diverse world that they are living in.

## 5. Curriculum Transition

The school prides itself on providing effective and vital support for pupils as they make transitions through the various stages in their education. We carefully manage the transition of our pupils throughout the school and also in preparing pupils for further education. Detailed assessment and planning allows the full team of professionals to ensure that all support is cohesive and leads to the fulfilment of each individual's targets. Pupils and their parents/guardian/carers are provided with advice about the transition process and included in

discussion prior to decisions being made about next steps. Part of the preparation for transitioning into adulthood will include support with travel training and transitioning in to buildings and organisations that house larger number of young people as well as accessing opportunities (including work experience) within the community.

## **6. Support, Advice and Communication**

For further advice or guidance related to this policy please contact the Deputy Head Teacher.

## **7. Monitoring arrangements**

This Policy will be reviewed annually by the Head teacher and the Deputy Head.
