

We are now using the Thrive Emotional Development programme at Aurora Redehall School, which will be used as a way of assessing children's strengths and weaker areas and to inform which children will receive Thrive intervention and to plan whole class activities.

In order for your child to benefit from the Thrive approach, we need parental consent for a Thrive assessment to be entered onto the Thrive on-line assessment tool. Your child will not be aware that this assessment is being done.

Please read the statement below and sign to signify your agreement.

- A Thrive assessment may be carried out for my child. A Thrive Assessment involves setting staff assessing the positive display of important social and emotional skills from a child or group/s of children and then determining the frequency and confidence of the skills being exhibited. The assessment process occurs as part of the normal daily observation of setting staff and therefore does not involve children directly responding to questions or having to experience being assessed.
- Personal data will be gathered relating to my child in order to carry out the Thrive assessment and action plan, this may include contact details, date of birth and information relating to my child's learning and behaviour at the setting.
- My child's personal data will be assessed by individuals from the setting and an automated process will assist with the action plan.
- Where there are other professionals and services involved, or required, for the best support of the child and/or family, it may be of benefit to share the Thrive action plan and profile. The setting will always inform me and consent will always be sought prior to information being shared. Typically this could include Speech and Language therapy, CAMHs provision, Social Care, Educational Psychology or other provision from the appropriate Local Authority, although this is not an exhaustive list.

I understand that information gathered in the Thrive assessment will be stored in secure computer systems and anonymous statistical information will be created. The data will be deleted in accordance with the setting's data retention policy.

The setting will only use any personal data collected for the purposes detailed in this consent form and in accordance with its privacy policy. The on-line tool is provided by Thrive who will process data on behalf of the setting. If I agree in the future, personal data may also be shared with other organisations who may provide support to my child.

I understand participation is voluntary and I can withdraw my child at any time.
