Aurora Brampton Valley School

Please refer to Group CCTV Policy A114

Local procedure

Data Protection Impact Assessment

The school recognises that CCTV systems can be privacy intrusive.

For this reason, the school has carried out a data protection impact assessment with a view to evaluating whether the CCTV system in place is a necessary and proportionate means of achieving the legitimate objectives as set out in the Aurora Group CCTV Policy.

The result of the data protection impact assessment has informed the school's use of CCTV and the contents of this procedure.

Details and location of CCTV system

The CCTV system used by the service comprises of:

Camera Type	Location	Sound	Recording Capacity	Swivel/Fixed
IP	Reception entrance	N	14 days	Fixed
IP	Main Drive	N	14 days	Fixed
IP	Staff car park	N	14 days	Fixed
IP	Staff overflow car park	N	14 days	Fixed
IP	Top of drive	N	14 days	Fixed
IP	Visitor Car park	N	14 days	Fixed
IP	Entrance to Building B main door	N	14 days	Fixed
IP	Disabled parking bays and top drive	N	14 days	Fixed
IP	Side of Building and entrance to courtyard	N	14 days	Fixed
IP	MUGA	N	14 days	Fixed
IP	Parth to pods	N	14 days	Fixed
IP	Bin Store	N	14 days	Fixed
IP	Entrance at back of Building A	N	14 days	Fixed

Signs are displayed clearly across the site so that staff, students, visitors and members of the public are made aware that they are entering an area covered by CCTV.

The signs indicate that the school operates CCTV, the school is a data controller.

CCTV cameras are not installed in any internal areas and/or areas in which individuals would have an expectation to privacy such as toilets, changing facilities etc.

Aurora

Cameras are positioned in order to maximise coverage, but there is no guarantee that all incidents will be captured on camera.

System Management

Access to the CCTV system and data shall be password protected and will be kept securely by the School Business Manager.

The CCTV system will be administered and managed by the School Business Manager who will act as System Manager and take responsibility for restricting access, in accordance with the principles and objectives expressed in the Aurora Group CCTV Policy. In the absence of the Systems Manager, the system will be managed by the Headteacher.

The CCTV system is designed to be in operation each day, every day of the year, though the service does not guarantee that it will be working during these hours.

CCTV images are not retained for longer than necessary, taking into account the purposes for which they are processed. Data storage is automatically overwritten by the system after a period of 14 days.

Recorded images will only be retained long enough for any incident to come to light (e.g., for a theft to be noticed) and the incident to be investigated. In the absence of a compelling need to retain images for longer (such as an ongoing investigation or legal action), data will be retained for no longer than 6 months.

The System Manager will check and confirm the efficiency of the system regularly and in particular that the equipment is properly recording and that cameras are functional. If the CCTV system is not working properly the System Manager will report the fault to the IT Team.

Cameras have been selected and positioned so as to best achieve the objectives set out in the Group CCTV Policy in particular by proving clear, usable images.

Details of all visits and visitors and requests to view images will be recorded in a CCTV Access log book including time/date of access and details of images viewed and the purpose for so doing which will be held by the School Business Manager in the SBM office.

The System Manager will ensure that the equipment is serviced periodically by a competent professional.

Complaints About the Use of CCTV

Any complaints in relation to the use of the CCTV system should be addressed to the Headteacher.

Requests for Access by the Data Subject

The Data Protection Act 2018 provides data subjects – those whose image has been captured by the CCTV system and can be identified – with the right to access data held about themselves, including those obtained by CCTV. Requests for such data should be made to the School Business Manager.

Details of all subject access requests for images will be recorded on GDPR Sentry and in the CCTV Incident and Request Log.

Public Information

Copies of the Aurora Group CCTV Policy and this local procedure will be available to the public upon request.
