Examination Results

All pupils are potentially entered for qualifications when in Year 11. If a pupil is particularly academically gifted and all parties, (parents, the school, and the child themselves), feel that the pressure is not too much they may, of course, be entered earlier. At all times our main priority is the social and emotional wellbeing of the individual. With this in mind, in consideration of a pupil's mental state, examinations may not be the priority, and again this decision will be reached with all parties concerned, including, if applicable, external agencies.

The School opened in 2019. Our first year of examinations was 2019.

Exam Results Year 2019 -2020
